N. P. M. A. S. Mission Statement

We the N.P.M.A.S.,
are a fellowship of amateur astronomers. We join together to share learnings, experiences, and the passion we have for astronomy. We nurture and promote this interest through our activities. The foundation of our endeavors is the enjoyment we share.

Club Meeting Notice

The next monthly club meeting will be held at the Neville Public Museum at 7:00 PM on Wednesday evening, January 12th. The featured talk will be about Celestial Navigation. Come on out and start the new year right.

Death Notice

Victor Hildemann passed away on December 3rd, 1993. He was the creator of the triple axis telescope which some of you might remember seeing in my observatory. It was the type of scope that you could stand at to observe and no matter where in the sky you would be observing the eyepiece position hardly changed position - somewhat like the Russell Porter Springfield telescope back in the early 1900's.

He will be missed by all us who knew him.

Ron Parmentier
